NEW AUTOMOBILE HACKS

WHAT THEY WILL LOOK LIKE
AND WILL DO.

Manager Grant Explains the Intentions
of His Company—Will Start Up in
About Two Months.

L. T. Grant, manager of the new au-
tomobile company, which will operate
horseless hacks on the streets of Hono-
lulu, has shown the Star an interesting
treatise on the development of the au-
tomobile, and the merits and demerits
of various kinds of horseless vehicles.
All of the argument points to the elec-
tric vehicle as the one for Honolulu, and
that is the automobile selected by the
company to operate here. Continuing on
this subject Mr. Grant said:

"We have on the way twenty of these
vehicles for public use; these are some-
what on the lines of hacks that are at
present on the streets of this city. We
are erecting a large charging station on
King street, and we have also a large
lot of vehicles coming, for sale, con-
sisting of runabouts, surreys, brakes,
etc., some of which are already sold. We
will do a general livery business, will
care for the vehicles we sell. If
customers so elect, and for a specified
sum a month will care for and keep in
good condition, under guarantee, the
vehicle. The station will be one of the
most modern and up to date in exist-
ence. Vehicle for use as hacks will
give a service of 200 miles a day, if
needed, as we can charge batteries in
five minutes. Batteries on private rigs
can be charged in forty-five minutes,
if needed in a hurry.

"We will use the celebrated Willard
battery, without doubt the very best in
the world at this time. Our vehicles
will be driven by expert drivers, who
will be specially trained for public ser-
vice, and we will give the public of Hono-
lulu a day and night service of the
very best. We shall also make a spe-
cialty of automobile repairing of any
kind, as we will have automobile ex-
perts in our employ who have been
trained to all makes.

"As to rates, we have not yet decided
upon these, but when we do we will ad-
vertise them some time before we are
ready to start up. At present we are
waiting for the contractor to get the
building completed, which will be of
concrete throughout, having cement
floors and all the latest sanitary ar-
rangements. Compressed air will be
used to handle the batteries with, and
for all cleaning purposes, under a pres-
sure of eighty pounds, will clean all
dust and dirt out better than by any
other means known. When will we get
started? That depends on the condition
of the building, but within the next
two or three months we hope.

"About speed? Our street vehicles
can make a maximum of ten miles an
hour. This we consider is fast enough.
We would rather carry our passengers
a little slower and carry them safely,
than to drive recklessly and every few
days have a smashup or run over some
one. The streets are too narrow for
much speed in town. The general rule
in the States and abroad, now is to re-
strain all public vehicles down to eight
miles per hour, and this where the
streets are wide.

"Our building and plant will have a
capacity of 100 vehicles at present."

GET ACQUAINTED.

The more people you know the
greater your chance of finding us full
friends among them. The same prin-
ciple obtains as to labor-saving con-
veniences. It is much better to get a
light by pressing a button at your
bedside than to rise, strike a match
and set the gas going. The more
things you know how to do, the more
thoroughly safe guarded you are in
emergencies and times of trouble. It
is ignorance along these lines which
induces incalculable loss of time,
money and health. "Oh, if I had only
known of it in time," is the sad, de-
ploring cry of multitudes who find
themselves in the grasp of some dis-
ease from which a certain remedy
might have delivered them. Now,
information comes through the eye
and ear. It is reasonable, therefore,
to suppose that what we are now
going to tell you about

WAMPOLE'S PREPARATION

may be the most valuable intelligence
printed in this newspaper. It is palat-
able as honey and contains the nutri-
tive and curative properties of Pure
Cod Liver Oil, extracted by us from
fresh cod livers, combined with the
Compound Syrup of Hypophosphites,
Malt and Wild Cherry. It has no
equal for the use of Invalids and
Consumptives. In all cases of Fevers,
Anemia, Nervous Debility, Pneu-
monia, Scrofula, Rheumatism, etc., it
may be implicitly depended on. Pro-
gressive physicians endorse and pre-
scribe it. Thin and wasted patients
quickly gain new health and strength.
One sufferer gained twelve pounds in
weight from a single bottle. If you
need it now take it now. If not, get
acquainted with it and know what to
do when occasion arises. One bottle
convinces. Effective from the first
dose. "You cannot be disappointed
in it." Sold by all chemists.
